Investment Allocation

Fill out Option I, Option II, or Option III. Please complete only one option.

(Please fill out Option I, Option II, or Option III. Do not fill out more than one option.)

By completion of Option I or Option II you enroll in GoalMaker, Prudential's asset allocation program, and you direct Prudential to invest your contribution(s) according to a GoalMaker model portfolio...

Please refer to the Get Started Guide for more information on rebalancing and age adjustment.

This form must be completed accurately and received by Prudential before assets are accepted; otherwise, your existing allocations will not change. If no allocation is on file, contributions will be placed in the default investment option selected by your plan.

Morningstar uses a holistic, total wealth approach steeped in research that considers an investor's unique risk preferences and risk capacity to map an investor to the most appropriate overall stock and bond mix in weights represent the optimal combination of "accumulation-oriented" characteristics vs. given the unique profile of the investor.

In applying particular asset allocation models to your individual situation, you should consider your other assets, income, and investments (e.g., equity in a home, Social Security benefits, individual retirement plan investments, savings accounts, and interests in other qualified and non-qualified plans) in addition to your interests in the plan.

There are other designated investment alternatives that have similar risk and return characteristics available and can be viewed in the "design your own allocation section" of this form. More information on these investment alternatives is available by logging on to prudential.com/online/retirement or by calling the number listed on this form.

By selecting your risk tolerance, and confirming your expected retirement age below, your contributions will be automatically invested in a GoalMaker model portfolio that is based on your risk tolerance and years left until retirement. You also confirm your participation in GoalMaker's age adjustment feature, which adjusts your allocations over time based on your years left until retirement.
